

Have You Tried It?

There is a bottle of Cardui waiting for you at the drug store. Have you tried it?

If not, we urge you to do so, before your troubles have obtained such a hold on you, that nothing will drive them out.

Even now, it may be nearly too late. But try it anyhow. If anything can help you, Cardui will. It has helped in thousands of cases, where other medicines had been tried in vain. Why should it not do the same for you?

Take CARDUI

The Woman's Tonic

"My daughter, Octava, would have been in her grave today, had it not been for that fine medicine, Cardui," writes Mrs. Laura Lawrence, of Drennon Springs, Ky.

"Nothing I tried helped my daughter, until she had taken Cardui. I had sent for the doctor, when I thought of your medicine and got a \$1 bottle. When she had taken four doses she became all right. I often recommend Cardui to my friends."

Your druggist sells Cardui with full instructions for use on the bottle.

Masculine Shyness.

A party of well-dressed women of a certain maturity of age is encircled with an atmosphere of awe which bears witness to their consciousness of power and superiority. For a complete stranger to enter among them requires a bravery of which mere man, unless driven by absolute necessity, is often incapable.—Black and White, London.

Some Words of Wisdom.

"It may be true," said Uncle Eben, "dat riches don't bring happiness. But dat ain't no good argument foh goin' to de yuther extreme an' wrestlin' wif debts."

When the Bluefish Gather.

The capture of bluefish from New Jersey to Monomoy during a season is 1,000,000, averaging six pounds. Bluefishing on the New England coast lasts 120 days.

Whetstones and Hones.

The particular classes of stone used in sharpening edge tools are varieties of slate, derived from argillaceous schists of the paleozoic. These stones are found in Turkey, Bohemia, Persia, Hartz mountains, in Syria, in the United States, Spain, Peru and Siberia. One of the best American stones for hones comes from Arkansas.

The Point of the Pin.

Mechanically the interviewer droned out his well worn questions. "And how, Sir William, did you get your start in life?"

"I got my start in life, young man," said the pork merchant, "through picking up a pin in the street. I had been refused employment by a butcher, and on my way out I saw a pin."

"Quite so!" chimed in the seasoned interviewer. "You picked it up, the butcher was impressed by your carefulness, called you back and took you into partnership. I know that pin so well!"

"Excuse me," broke in the pork vender, "but you proceed too fast. I saw the pin and picked it up—quite true. But I sold it for £100. It was a diamond pin."—London Mail.

The Job He Wanted.

"Dear Sir," said an applicant for a position to the secretary of the treasury, according to the Saturday Evening Post, "I am very anxious to obtain remunerative employment in the treasury department. While my educational advantages do not qualify me for any of the higher places, I could fill one of the minor places to advantage, and I respectfully apply for the position of chief cuspidorian of the department."

The letter went to the assistant secretary for reply, and he wrote as follows:

"Dear Sir—I regret very much that nothing can be done for you. There is no such place as chief cuspidorian. You have coined the word, but I cannot coin the job."

Cause for Suspicion.

"When a man dat's tryin' to trade horses wif me stahts braggin' 'bout how honest he is in his dealin's," said Uncle Eben, "I can't help suspectin' dat he's gettin' ready to make an exception in my case."—Washington Star.

Researches as to Cancer.

A big British doctor finds that the parts of the body in which cancer starts, such as the lower lip, liver, etc., are highly electric and radioactive. A piece of the lower lip, if laid on a photo film, darkens it the same as does radium, but if a piece of the lung—cancer seldom comes in the lung—is put on the photo film nothing happens. So the doctor argues that highly electric flesh is the main secret of cancer. Woman's flesh is more electric than man's; cancer is commoner in women.—New York Press.

Accidents will happen, but the best regulated families keep Dr. Thomas' Electric Oil for such emergencies. It subdues the pain and heals the hurts.

Tempus Fugit.

Two darkies were engaged in a lively dispute about the purchase of a mule.

"Look heah, Mistah Jackson," exclaimed one, "you done tole me t'ree weeks ago dat mule was a young animal. He hain't got a toof in his head, he's so old."

Whereupon Mr. Jackson thoughtfully scratched his head and replied, "Time shua does fly in dis heah country."—Success Magazine.

A healthy man is a king in his own right; an unhealthy man is an unhappy slave. Burdock Blood Bitters builds up sound health—keeps you well.

What's In a Name?

An amusing story has been told concerning Mr. Phillips' classic drama, "Ulysses." When it was being played in America, two young girls were sitting together in the stalls at a matinee performance, and before the curtain rose the following conversation was heard: "Say, Maude, I know this play is going to be funny." "What makes you think so?" asked Maude. "Why, anybody could tell that from the name!" was the reply.—M. A. P.

The Stumbling Block.

"I'd tell my friends frankly of all my faults," says the Philosopher of Folly, "but for one thing. They'd believe what I told 'em."

On General Principles.

A little miss of five who had no brother and who did not like the boys at school who teased her, especially a boy named John, remarked at home: "I wish John was my boy. Do you know, if he belonged to me, I'd lick him whether he needed it or not."—Exchange.

When the UNITED STATES GOVERNMENT entertains, the whole world "SITS UP" and "TAKES NOTICE." In all the different "WORLD'S FAIRS" which have taken place, our NATION'S ARMY EXHIBIT and PARTICIPANTS have invariably been the most complete and interesting OF ALL that was represented. Add to this record the fact that THIS EVENT means the United States Army in a MARVELOUS BIG EXHIBITION entirely its own. OVER 2,000 U. S. ARMY TROOPS PARTICIPATING. Full Regiment of CAVALRY—full Battery of FIELD ARTILLERY—full Regiment of INFANTRY—Sections of SIGNAL, ENGINEER and HOSPITAL CORPS—camped on the 150 ACRES of State Fair Grounds—superbly equipped, through the nature of expert training, to give the most unique, decidedly different and vitally interesting program that you have ever had the opportunity of seeing. THIS TOURNAMENT will be greater than a dozen State Fairs—larger than all circuses in the world combined, and comes but once in a life-time.

SEE THE AIRSHIP FLIGHTS DAILY

CHARLES K. HAMILTON, America's Foremost Aviator, will fly the famous Curtiss Aeroplane as a feature of the DAILY PROGRAM. There will be other AMUSEMENT FEATURES of a wonderful and varied nature. Music by TWO MILITARY BANDS.
